TALENT SELECTED

NODAWAY CHAUTAUQUA LIST FOR NEXT YEAR ALMOST COMPLETED.

SEVERAL CHANGES MADE

Has Been Dated Two Weeks Later Than This Year to Benefit Farmer and For Cooler Weather.

Most of the talent for the Nodaway Chautauqua next year, August 15 to 23, 1913, is hired, and the list includes many prominent names. The old plan of hiring individual talent from different bureaus was followed. The entire board of directors of the Chautauqua met yesterday with representatives of the Chautauqua bureaus to select the talent, and they worked all afternoon and until 9 o'clock at night on the program. They think they have secured the best program ever had here.

Some of the talent contracted for is: Senator La Follette, Senator Poindexter, Maud Ballington Booth, Dr. Green, a widely known lecturer. A good deal of care was taken to provide plenty of first class musical and entertainment numbers. Delano's Marine band will be here for two days. The Cathedral choir, an eastern organization of nine people, has been selected. The Avon Sketch club, which gives short dramatic sketches and musical numbers, will be here for two days. The Dixie Jubilee Singers, who were so popular here two years ago, will return. The Boston Music club, a double quartet, will appear on the program several times. Ratto, a noted character artist, will give an evening's entertainment. Lulu Tyler Gates, who has been here twice and drew the largest crowd two years ago that ever attended any Chautauqua here, will give a reading of one of the late popular plays. Some dates are still left open, but will be contracted for as soon as possible with the best talent obtainable.

Several changes have been made for the Chautauqua next summer. In the first place, it has been put about two weeks later than it was this year. This is done to give the farmers time to finish their threshing and in the hope that the weather will be cooler. Then the management of the Chautauqua will be divided into four departments, each with a man in charge. These departments will be advertising, financial, grounds and program. It is planned to cut down the outside expenses as much as possible in order to put more money into the program. At the meeting last night the board directors refused to accept Mr. Landon's resignation, and if he returns in time next year from his trip abroad he will probably manage the platform. At any rate, no outside man will be hired as manager.

Mr. Landon presented his accounts of this year's Chautauqua to the board last night, and they were gone over and approved by an auditing committee. There are some few little accounts that have not been settled yet, and the complete statement will not be ready until next week.

A NEW OIL COMPANY.

Harry Mutz One of the Proprietors of a Firm Which Will Transact Business Over the Entire County.

Harry Mutz is one of the proprietors of the Independent Oil company, a new business firm which will begin selling oil here sometime next month. Mr. Mutz's partner is Albert Stewart of Montague, Mich., a man who has been in the oil business for a number of years. Mr. Stewart will arrive in Maryville about the middle of October to help conduct the business.

The company has leased the ground next to the Leet elevator near the Burlington depot and will erect tanks and a warehouse there. The tanks will be set up in about six weeks. The company is to be a distributing station for the county and will handle a large amount of oil and gasoline.

Mr. Mutz will continue in charge of his text book and supply store at the Normal.

Bigerstaff in St. Joseph.

Bryant C. Bigerstaff, formerly with the Gazette, who has been in newspaper work in Indianapolis during the past few months, returned to St. Joseph yesterday morning.

Bigerstaff was assaulted by strike-breakers in Indianapolis a few weeks ago, and as a result has been suffering from internal injuries. He came home for a rest of two weeks, after which he will move his family to Indianapolis.

The return home of the newspaper man was almost simultaneous with the birth of a daughter at his home—St. Joseph Gazette.

ABOUT THE COUNTY ADVISER.

M. C. Thompson Writes in Favor of Adviser—H. C. Hiles is Against It.

In this week's Missouri Ruralist appear two letters, one from M. C. Thompson of Maryville and the other from H. C. Hiles of Burlington Junction. Mr. Thompson writes of the county adviser and how important a man he is to the farmers. Mr. Hiles is opposed to a farm adviser.

Here are the letters:

Just a few words in defense of my friend the farm adviser.

You will notice that all the kicks and slurs and discriminations against the farm adviser come from counties that have no adviser and therefore are in no position to say whether they are a benefit or a nuisance. There are some fellows who "you can't tell nothin' 'bout farming," they don't "know nothin' 'bout farmin'" and of course an adviser would be useless to them.

If Pettis county had the power to sell Sam Jordan what do you suppose they would take for him? This would be about the answer: "He's not for sale at any price. We don't care to part with him." And you would get about the same answer from the other counties that are wise enough to employ county men.

The time is coming when the farm adviser will find an office in every county as readily as the treasurer, the recorder, or any other county officer. The fertility of the soil will thereby be maintained where it is now depleted; and the hopes of a future generation brightened. If your land isn't doing well call the "land doctor" out to see. He might tell you something about it of which you never dreamed. As I never heard of any county "rifling" their adviser they must be very desirable citizens.

If they would work for one-half the profits they would get about ten times as much salary. One county in Illinois paid their adviser \$15,000 in five years and claimed his operations profited the county \$150,000, a clear gain of \$135,000.

What is that? A poor investment or a good one? You'll have to be your own judge. Just wait and look and listen and you will soon hear his footsteps, he's on the way. It costs so little to get him and so much to do without him that he's got to come.

M. C. THOMPSON.

I wish to tell how we kept the pest known as farm adviser out of Nodaway county. Hearing that a petition would be presented to the county court asking for an adviser, I proceeded to circulate a remonstrance. I visited three towns and two public sales and obtained 800 signatures. This represented about four hours' work. I presented this remonstrance at the first day's session of the court. A silver tongued editor was present to take notes of the court's proceedings and he championed the cause of the adviser plan while I argued against it. After discussing the question for an hour I had the satisfaction of hearing the presiding judge tell my opponent that I had him "skinned a mile." We have no fears of being infested with such a pest as long as the present court attends to the business of the county.

H. C. HILES.

Miss Lena Nixon left Saturday noon for Waukegan, Ill., where she will teach the coming year.

GOOD ATTENDANCE OUT IN THE OPEN

ONE HUNDRED AT CONVENTION OF CHRISTIAN CHURCHES.

SPEAKERS INTERESTING THE SUNDAY SERVICES

Several Good Addresses—County Convention Will Be Held at Gaynor City Next Year.

In spite of the heat the annual convention of the Nodaway county Christian churches, held at Burlington Junction Thursday and Friday, was well attended and a great success. There were 100 delegates there from all over the county.

The best thing on Thursday's program was the address by J. H. Morbort of St. Louis, superintendent of the Christian church orphan's home there, on "Our Benevolent Work." He told of the good work being done by the church among the orphans. The St. Louis home is the largest one of the denomination and cares for 175 children. At the close of his address the representatives of the churches of the county voted to send a car load of provisions, clothing, vegetables, canned fruits and such to the home next month.

Among other things of Thursday's session was a talk by R. E. Snodgrass of Savannah on "Our Proposed Evangelistic Campaign," an address by Rev. C. M. Chilton of St. Joseph and the Bible school session.

Friday morning O. G. Null of Pickering spoke on "Systematic Church Finance." His address was considered so practical that it will be printed in pamphlet form and distributed among the churches of the county. The president's address by Rev. C. J. Miller of Maryville and discussions of the problems of the country church filled the morning program.

The women of the Burlington Junction church served dinner at noon to the members of the convention, and everybody was seated at once at a long table in the basement of the church. The afternoon was given over to reports and the election of officers.

The officers elected were:

President—Rev. J. W. Love of Burlington Junction.

First vice president—Rev. W. H. Rust of Burlington Junction.

Second vice president—Rev. J. C. Polly of Skidmore.

Treasurer—George L. Wilfley of Maryville.

Secretary—O. G. Null of Pickering.

Superintendent of Bible schools—Rev. E. W. Killion of Pickering.

Superintendent of Endeavor societies—H. J. Becker of Maryville.

President of the C. W. B. M.—Mrs. J. D. Frank of Maryville.

The treasurer's report showed a balance of \$54 on hand.

The convention next year will be held in Gaynor City.

Hints That Help Housewives.

When eggs are scarce and they are needed for puddings, a dessert spoonful of cornstarch may be substituted for one egg.

Dampness will tarnish brass articles. They should be kept in a dry, cool atmosphere.

A good flavoring for syrups, jellies and preserves is made with oranges and lemon peel.

The best results are obtained from a kerosene lamp if the bowl is filled with oil only to within an inch of the top.

The water in which cabbages, onions, turnips or Brussels sprouts are cooked should be changed every quarter of an hour. Of course, the fresh water used should be boiling when poured over the vegetables. The change of water makes the vegetables less strong in flavor.

The water used in making bread should be scalded and then allowed to become lukewarm before being mixed with the other ingredients. Milk, too, should be brought to the scalding point and then cooled before being used in bread making.

A few drops of rosewater added to almonds will prevent their oiling when chopped.

After peeling onions rub your hands with celery or parsley. It will counteract the odor.

A delicious sandwich filling is made from one part chopped almonds and two parts of shredded or grated celery, with a dash of salt. Moisten the mixture with mayonnaise.

Mr. and Mrs. J. A. Hartman returned Thursday from a trip to Oelrichs, South Dakota, and Great Falls, Montana. Mr. Hartman reports good crops there, also everything booming.

WILL HAVE ASSISTANT.

Council Employs a Helper For City Engineer For Next Few Months.

An assistant engineer will be hired by the city of Maryville this fall to help Engineer Flynt with the unusual amount of work here. This was decided at the meeting of the city council last night. The new man will have charge of the paving and street work that is to be done, thus leaving Mr. Flynt free to devote his entire time to the water works.

The council also granted the petition for a sidewalk on the east side of North Main street from Sixth street to Lawn Avenue. The city attorney was instructed to draw up an ordinance to this effect.

Nothing else but routine business was transacted, the allowing of bills, etc., among which was one allowing the Wabash railroad the balance of \$195.55 on the work of the Ninth street crossing.

AND IT MAY RAIN

A SLIGHT HOPE IN THE FORECAST FOR MISSOURI.

SITUATION IMPROVED

Better Feeling Over the Water Situation as Difficulties Are Conquered—Some Chance For Ice.

There is hope in the forecast, for while the prediction is for generally fair, there is the saving qualification of local thunderstorms probable. It is therefore possible that some portions of Nodaway county may be partially wetted down and cooled off. Then, too, the city officials say there is water enough in sight in the river to supply the town for a month at the rate water is being used at the present time. The ice situation is rather more uncertain. Several of the local business men secured small shipments by express from St. Joseph Friday night, and it is probable that ice cream cones will be on sale for a while longer. The saloons were among the fortunate ones who were able to get ice. Two or three Maryville men who were in St. Joseph Friday were also able to purchase small quantities and these were sent up Friday night by express. One man claims he has made arrangements whereby he is to get a shipment two or three times a week, and that fact is not to be classed among the luxuries at his house. The light plant is still being run on water hauled in the tank wagons, and Manager Hellmers says there is no change in the situation or prospects as far as the light plant is concerned. The water service in the city is much improved over the fore part of the week, the water being turned on at more frequent and longer periods, and if the estimate as to the amount of water in the bed of the river is correct further improvement may be looked for.

Another inch of water was gained in the reservoir yesterday. The fifteen men sent by the Burlington arrived this morning and are at work on the river and their work has increased the flow of water to the pumping station. All this has made it possible to pump water all day, and Manager Denny says that he thinks he can give all-day service from now on. No water will be pumped at night, however. The ice question remains the only serious part of the situation here.

The local dealers have not been able to get any shipments of ice yet, but the small private shipments have relieved conditions slightly with some people. The Everhart well is still choked with the bit which fell into it Thursday night, and there is no hope of getting it out.

F. G. Shoemaker gives out the best ice news heard here. He has been trying to locate a supply of ice for several days, believing that there was surely some place from which he could get it. Yesterday he heard of fifteen car loads that were for sale and telegraphed for it at once. He has received no answer yet, so does not know whether he put his order in its time or not. If the ice is sold to him it will be here Monday, but Mr. Shoemaker does not want to raise any false hopes and will promise nothing.

The laundry has been running yesterday and today and will probably continue to run next week.

ONLY 100 TODAY.

A Drop in Temperature—But Not Much.

Were you hot today? You shouldn't have been, for it is the coolest day we have had for a week. You don't believe it; well, you'll have to, for the weather man says it was only 100 today. That's it, 100 at 3 o'clock.

The Orchard-Lands of Long Ago.
O drowsy winds awake and blow
The orchard lands of Long Ago!
The snowy blossoms back to me,
And all the buds that used to be!
Blow back along the grassy ways
Of truant feet, and like the haze
Of happy summer from the trees
That trail their tresses in the seas
Of grain that float and overflow
The orchard-lands of Long Ago!

Blow back the melody that slips
In lazy laughter from the lips
That marvel much if any kiss
Is sweeter than the apple's is.
Blow back the twitter of the birds—
The lisp, the titter, and the words
Of merriment that found the shine
Of summer time a glorious wine
That drenched the leaves that loved
It so
In orchard-lands of Long Ago!

O memory! alight and sing
Where rosy-bellied pippins cling,
And golden russets glist and gleam
As in the old Arabian dream
The fruits of that enchanted tree
The glad Aladdin robbed for me!
And, drowsy winds, awake and fan
My blood as when it overran
A heart ripe as the apples grow
In orchard-lands of Long Ago!
—James Whitcomb Riley.

Democratic Weather.
There's the devil to pay with the weather
Since the Democrats got into power;
For seven long weeks and then some
We have waited in vain for a shower.
The mercury has soared high and higher;
At noon it is plum out of sight,
And every house in our village
Is as hot as an oven at night.
The rivers have run out of water,
The fish are all learning to walk,
And our oldest inhabitant living
Is now commencing to talk
Of a drought way back in the forties
When he can remember quite well
How it was a right smart more windy
With a mighty sight longer dry spell.
So we've got to do something at once,
folks,
And knowing full well who's to blame,
Let's all rise up in our midst, folks,
And stop the whole Democratic game.
It is surely malfeasance of office
To bring on a season like this.
But think of three, more that follow,
Three summers to sizzle and hiss.
So, turn out the rascals at once, folks,
Our duty's quite certain and plain;
With the G. O. P. back in the harness
We're sure to get plenty of rain.
—G. N. Nichols in World-Herald.

New Auto Headlight.

A new automobile headlight has been brought out in France which is designed on the lines of the human eye and is entirely different from any which have heretofore been in use. The direction of the rays is under constant control, the lamp moving in its socket in the same manner as the human eyeball. Two small clamps, controlled by thumb screws from the interior of the car, hold the lamp in position in any desired direction, while the handle itself is used in turning the light rays to the spot they are needed. Signposts at the side of the road or the low lying milestones are thus brought within reach of the rays, while in their lowest position they even throw light into the blood, lighting up the motor, magneto and carburetor. By removing the two small clamps entirely, the whole lamp can be taken out of the socket and used as a "trouble lamp" inside or outside the machine.

WHEN IS MARRIAGE COMPLETE?

Some Interesting Questions Arise as Result of an Interrupted Ceremony.

New York Despatch.—At just what point in the marriage ceremony do the parties to it become legally husband and wife?

Listen: Edmund and Marguerite (this is a true story) stood before the white robed minister while a hundred guests looked on. The good man read from his prayer book the opening words of the familiar service, beginning, "Dearly beloved, we are gathered together—" looked the bridegroom in the eyes and said:

"Edmund, wilt thou have this woman to be thy wedded wife, to live together after God's holy ordinance in the holy estate of matrimony; wilt thou love her, comfort her, honor and keep her in sickness and in health, and forsaking all others, keep thee only unto her so long as ye both shall live?"

The bridegroom replied distinctly: "I will," and fell dead.

The tragic episode, enacted recently in this state, has started an avalanche of complications. The stricken bridegroom was a man of wealth. The bride was of slender means.

Friends of the strangely widowed little woman declare she has a right to one-third of Edmund's real property, being in their opinion not only morally and ethically his widow, but legally as well.

By his "I will" they contend Edmund subscribed unequivocally to the marriage contract, the mere fact that the ceremony was not completed having no real bearing on the case.

Those who oppose this view declare a mutual vow is necessary to make a marriage legal. A fragmentary religious formula, in which the bride has taken no verbal part, cannot, they say, be construed as basis for a claim of dower.

Is Marguerite Mrs. Edmund? Or still Miss Marguerite? The minister who was performing the ceremony shook his head and declined to express an opinion, having no precedent to guide him.

A lawyer among the wedding guests thought the marriage would hold good, although never had he known a similar case, nor was he posted as to recently enacted marriage laws.

Over at the marriage license bureau in the city hall it is the opinion that Marguerite is still unwed. Clerk Stuart Harris has seen many cases of interrupted marriage ceremonies and thinks no court would decide that the mere signified intention of the groom is sufficient to constitute legal marriage.

"I believe," said he, through his unsentimental little criss-cross wicket, "that a pronouncement by the minister of justice that the couple are husband and wife must be made before a marriage is completed."

"Common law marriage, of course, has been done away with, only those common law marriages being held legal which antedate the new amendment. It is not enough that two persons simply declare themselves man and wife.

"They may be married, however, by various forms. It might possibly be held that the statement by the groom that he would have the woman for his wedded wife, to love, comfort and keep, etc., constituted a certain form of marriage ceremony, but I don't think so.

"I have known of couples coming to the city hall for the license and marriage ceremony in the aldermen's chambers where the bride lost her nerve and refused to take her vows when the questions were put to her.

"I have known some of them actually to run away in the midst of the ceremony. These, so far as I know, were never held to be legal marriages. But it would take a lawyer to pass definitely upon such an unusual case."

E. Mortimer Boyle, a widely known lawyer, says that Marguerite and Edmund were not married by the interrupted ceremony.

"In the state of New York," says Mr. Boyle, "there is a general rule applying in such cases that, in the presence of the magistrate or clergyman and at least one witness, both parties to the marriage must declare they take each other as husband and wife.

"It would, therefore, seem clear that the man and woman in this most extraordinary case were no more married than if the bridegroom had died an hour before the ceremony was begun."

Mr. Boyle knows of no precedent for the case of Edmund and Marguerite, whose friends declare it will be brought before a judge and decided once and for all, no matter what anybody thinks about it.

GHOULS ROB BODIES IN NEW HAVEN WRECK

Witness Tells of Seeing Man Cut Finger of Dying Woman.

New Haven, Conn., Sept. 6.—That there were wholesale and disgraceful robberies from dead bodies at the railroad wreck at North Haven is declared by Coroner Mix in a report to Chief of Police Smith, requesting him to apprehend the culprits.

Coroner Mix said during his inquest witnesses told of men cutting fingers off dead passengers to get rings, and of persons searching clothing of injured passengers to secure money or valuables.

As soon as this testimony was given the coroner had Chief Smith come to him and to that official was given some of the statements brought out, with descriptions given of the alleged thieves. Shortly afterward four detectives were sent out.

Engineer Miller of the White Mountain testified that he had heard a woman groaning, and looking around he saw a man deliberately cut off her finger, on which were several rings. He also saw a man strip a dead woman's hand, and afterward he saw a man lean over an injured woman and snatch away a locket.

Other railroad men gave corroborative testimony, and one of them told of a man who, with a pillowcase, went about picking up jewelry, purses and other articles of value. When others saw what he was doing they chased him across the yards.

In the investigation before the interstate commerce commission three witnesses testified that engineers of the New Haven railroad frequently pass danger signals of the "banjo" type in foggy weather without stopping.

It was further testified that the White Mountain express, the train which plunged into the Bar Harbor express, was barely saved from colliding with the Bar Harbor train before the New Haven disaster at a point between Springfield and Hartford.

The two trains involved were the last of a procession of six which that morning passed Wallingford, three miles north of the wreck, within a period of thirty-two minutes. The White Mountain was making fifty-two miles an hour at Wallingford.

DUN'S REVIEW OF TRADE

Sentiment Cheerful Despite Certain Unfavorable Conditions.

New York, Sept. 6.—Dun's Review of Trade says:

Early promise of another year of remarkable crops will not be fully realized, yet the purchasing power of the agricultural community is sustained by high prices for the leading farm products. Official confirmation of considerable deterioration in cotton caused a sharp rise in that staple and corn advanced on a continuance of hot, dry weather.

The reduced harvests are calculated ultimately to have some effect upon railroad freight traffic, but it is gratifying that sentiment remains cheerful in spite of the less favorable outlook in certain directions.

While the delay in the adoption of the pending tariff bill acts as a check, business nevertheless has emerged from its customary summer lethargy and with the approach of the fall season the revival of activity is becoming more pronounced.

Every Man's Home.

Every man's home is the best old home,

And every man's wife the sweetest; Every man's child is the best little child,

The best behaved and the neatest; Every man's baby is better than all

The babies that ever were born— And just so it's babies and wives and homes,

Why, let 'em all blow their horn!

Every man's wife makes the finest preserves,

And every man's wife bakes bread That beats all the bread that ever was made

From Hatteras to Stony Head. Every man's home is the place to see

The finest housekeeping on earth— And just so it's bread and preserves and home,

Let 'em keep on with their mirth!

When every man thinks that his own home's best,

And his own wife sweetest, why then We'll swing back unto the golden dream

Of a heaven on earth again. And isn't it beautiful, fine, and sweet,

That faith of a man in his child, And his wife and his home and his simple life

That he boasts of undefiled!

When every man's home is the sweetest place

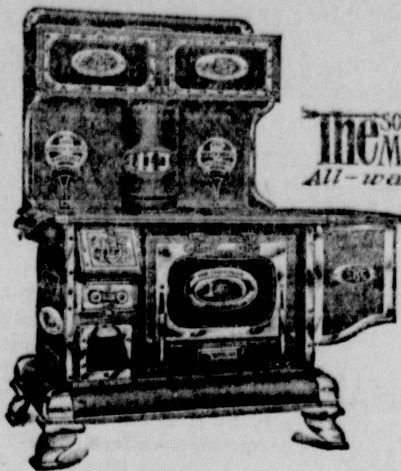

On earth for a man to be; When every man's wife is the sweetest wife

In all the world to see; When every man's child is the dearest child

That ever drew breath—ah, then, We shall have better children and women and homes,

And a darned sight better men!

Plan Unique and Correct Plan.

Many guide books of literature have been made. But their plan has not been the best. Editors seem to have labored to include too much, fearing to offend some tradition or school. But Mr. Stoddard has in person through thirty years searched in all lands for the fewest pieces of literature that give us the best product of only the best writers of all times. While others have included as many as 2,000 authors, Mr. Stoddard has found that one-fifth of that number represent the universe of human culture and of literary ideals. He has reduced 80 per cent the universe of human culture and of literary ideas. He has reduced 80 per cent the wear and tear upon the time and energy of the individual who seeks intellectual culture. Mr. Stoddard admits but 400 writers.

CAMINETTI IS FOUND GUILTY

Convicted on One Count of Mann Law Violation.

JURY OUT FOR THREE HOURS.

Eight Ballots Taken, the Vote Standing From the First Ten to Two Against His Acquittal—Defendant Takes Verdict Lightly.

San Francisco, Sept. 6.—Farley Drew Caminetti, son of the commissioner general of immigration, was found guilty on one count of the indictment charging him with violation of the Mann white slave traffic act.

The jury was out three hours and took eight ballots. From the first vote stood 10 to 2 for conviction and finally the two recalcitrants agreed to compromise by finding a verdict of guilty on one of the four counts charged.

Bail in the sum of \$10,000 was furnished by Frank Freeman of Willows, Cal., and G. Bacigalup of San Francisco and was ready to be filed with the United States marshal when the verdict was announced. Sentence will be pronounced Wednesday, the day set for sentencing Maury I. Diggs, jointly indicted with Caminetti and convicted on four counts. Exceptions to the charge of Judge Van Fleet as a whole and in part were taken by counsel and a petition for an appeal will be filed as was announced in the case of Diggs.

Caminetti took the verdict lightly, smiled a forced smile and nudged his brother jocularly. First he lifted his little daughter, Naomi, who was playing at his feet, and placed her carefully in her mother's lap. Then he shook hands with his lawyers and with Diggs, who had been sitting by.

His mother and wife showed no emotion. They sat with lowered heads, gazing into their laps.

WESTERN FUEL FINED

Secretary Norcross Sentenced to Jail for Contempt.

San Francisco, Sept. 6.—Judge Maurice T. Dooling, in the United States district court, ordered a fine of \$2,000 imposed on the Western Fuel company, and directed the imprisonment of David C. Norcross, secretary of the company, for contempt, because of the refusal to produce the company's books before the federal grand jury, which is investigating alleged customs weighing frauds.

Counsel for the Western Fuel company and Secretary Norcross asked that execution of the court's orders be deferred until Monday, and this was granted by Judge Dooling.

GREAT FIRE IN HOT SPRINGS, ARK.

Loss \$10,000,000 and 2,000 Persons Homeless.

Hot Springs, Ark., Sept. 6.—Fire, which started in a negro cabin, is slowly dying out at the foot of West mountain, the southern extremity of Hot Springs, today, after reducing to a smoldering mass of wreckage an area more than a mile in length and from seven to ten blocks wide in the eastern section of the city. The monetary loss is estimated at \$10,000,000.

In the path of the flames were houses, hotels, a number of more pretentious residences and public buildings, which are in ashes.

It is estimated that 2,000 persons are homeless. So far as can be ascertained, there were no fatalities and the few persons hurt suffered only minor injuries.

Among the buildings destroyed were: The city's light, water and power plants; county court house, high school building, Park hotel, Moody hotel, Princess hotel, Iron Mountain railroad station and shops, the Arkansas sanitarium and smaller buildings by the hundreds were reduced to ashes.

But few of those whose homes were burned saved any of their household effects and guests of the hotels gave little heed to their valuables and luggage in their efforts to escape the flames.

The burned district for some distance skirts the business section and several times the shifting winds headed the fire for the principal business section, but each time the free use of explosives and an opportune change in the wind saved it.

Car Hits Fence; 2 Dead, 3 Hurt.

Jackson, Mich., Sept. 6.—Harry Endicott of Anderson, Ind., a brother of "Farmer Bill" Endicott, the noted automobile racer, and Mary Sarata, a ten-year-old spectator, were killed and three persons injured here when Endicott's automobile, hurtling around the race track, crashed through a fence after one of the front tires blew up.

Schools at Pierre Closed by Heat.

Pierre, S. D., Sept. 6.—The temperature record here was almost up to record for the summer, going to 103 degrees. On account of the heat the city schools were closed for the afternoon.

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die. At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well."

I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

Your druggist sells it. Please try it.

CANADA DELAYS OUSTING OF THAW

Writ Saves Matteawan Fugitive From Deportation.

ORDER BY BOARD OF INQUIRY.

Prisoner to Be Produced Before King's Bench Sept. 15—Jerome Placed in Jail for Playing Poker—Is Released Later on Bail.

Coaticook, Que., Sept. 6.—Harry K. Thaw will be produced before the full king's bench, appeal side, at Montreal, Sept. 15. Meantime he will be detained here, or at Sherbrooke, or taken to Montreal on a moment's notice, at the discretion of the immigration authorities. Two of his counsel, J. N. Greenshields and N. K. Laflamme, obtained a double writ—habeas corpus and prohibition—at Montreal and whirled into Coaticook on a special train, where not long before the immigration authorities had ordered Thaw's deportation from the Dominion.

Counsel for Thaw who had remained in Coaticook had announced that the writ was returnable forthwith and a special train was made up to take the prisoner to Montreal. A great crowd collected about the station where Thaw was confined and it was not until later that it became known that he might remain here several days, because the writ is not returnable until Sept. 15.

Cheers When Writ Arrives.

There were cheers when the writ arrived and more cheers whenever Thaw appeared at the window of the detention room. When the special train pulled out for Montreal without Thaw aboard there were cries of disappointment, then more cheers when the news got abroad that for Thaw the new movement meant ten days' delay. Not only by the writ secured in Montreal, but by the action of his attorneys on appeal did Thaw block his deportation. In addition he had the pleasurable knowledge that his old enemy, William Travers Jerome, had been arrested, charged with gambling.

If ever a little town produced "sensations," Coaticook did. First came Jerome's arrest and release on bail on a charge that he had played poker on railroad property with some newspaper men. Then came word that Thaw's lawyers had obtained in Montreal the writ demanding his production in court there.

Deportation Ordered.

Meantime the special board of inquiry ordered Thaw's deportation to Vermont under two clauses of the immigration act, namely that he had entered Canada by stealth, and within five years had been an inmate of an institution for the insane. From both these decisions Thaw's lawyers appealed.

The immigration officers, headed by E. Blake Robertson, were powerless, and Thaw remained in the detention room over the Grand Trunk railway station. Finally the Thaw lawyers in Montreal chartered a special train and came here with the writ itself, serving it in the afternoon.

Jerome's arrest was due to two causes and was not prompted in any way by the Thaw lawyers. One and all, they expressed indignation at the move and said they were ready to aid him. What the arrest really signified was the state of public opinion here was decidedly pro-Thaw and more decidedly anti-Jerome.

HEAT WAVE CONTINUES

Will Last Into Next Week in Kansas and Missouri.

Kansas City, Sept. 6.—Extreme heat prevailed in Missouri, Kansas and Oklahoma again, with temperatures ranging toward the 100 mark. Reports of suffering from lack of water in various localities continue. The United States weather bureau report indications are that there will be no change before next week.

Reports from Topeka say the drought has worked about all the damage possible to crops and that the problem now in afflicted sections is where to get water to drink. Brandy lake, near Hutchinson, is dry for the first time in the memory of the oldest settler.

At Joplin, Mo., school sessions are limited to the morning hours because of the heat.

Beer Costs Player Six Hundred Bonus.

St. Louis, Sept. 6.—The most expensive glass of beer ever sold over a local bar was sold to Outfielder Ping Bodie of the Chicago Americans. Bodie was notified that the beer would cost him \$600 in addition to the 5 cents he paid the bartender. When Bodie signed with the Chicago team last spring he promised not to take a drink the present season, and if he kept his promise he was to receive a bonus of \$600.

Cotton Pit in Panic.

New York, Sept. 6.—Reports that the Democratic caucus of the senate had agreed to the proposed tax rate of one-tenth of 1 per cent to be laid on trading in cotton futures, threw the local cotton market into a semi-demoralized condition. Prices broke \$2 per bale from their high level of the day under general liquidation and the market closed feverish at a net loss of \$2 to 42 points.

GREAT LITERARY WORK

Some Opinions of Great Critics and Educators on the Stoddard Library

The Stoddard Library gives to parents and children, who have a keen desire for education and wholesome entertainment the best thoughts in the best works of the finest minds of the world's history. Any work by Mr. Stoddard is deserving of careful consideration, but in the Stoddard Library I believe the author has accomplished his greatest good.

WM. M. HYMAN,
Principal Woodland Schools, California.

Mr. Stoddard is a born entertainer. He knows well what will entertain the average mind, and into this work he has put his mature thought that the need felt might be met; and with it methods may impress their children's minds with the best, in a most interesting and entertaining way.

REV. C. DONE, Ph. D.,
Pastor Presbyterian Church, Portland, Me.

I have examined Mr. Stoddard's library with care and take pleasure in endorsing the general principles of its selection as well as the actual results which have been achieved.

DR. HAROLD DEWITT FULLER,
Dept. of Comparative Literature, Harvard University.

To own and read the Stoddard Library is to form acquaintance with the good and great in literature. Nobody can afford to miss the joy and

profit derived from such acquaintance.

G. A. SCOTT,
Pastor M. E. Church, Des Moines, Ia.

I congratulate John L. Stoddard on his bringing together in "The Stoddard Library" such a magnificent collection of "selections" from the world's best literature.

W. M. DAVIDSON,
Supt. Schools, Omaha, Neb.

After a careful examination, page by page, I find that the Stoddard Library is the greatest library compilation of the day. It is a peerless grouping of the best productions of the greatest writers. It is the finest literature of the richest gems from the wealthiest minds. It runs the whole gamut of literature achievement. The Stoddard Library furnishes entertainment to the class who like to listen to the story-music of the laugh makers. It is companionship with the most influencing characters of all ages to those who feel the blighting touch of loneliness. It is a brilliant shining faith-light to those who are walking the darkened ways of religious doubt. To those who wish to learn, it is "an intellectual power through words and things," and deserving of the highest praise and widest circulation.

CHARLES H. ELDER,
Pastor Trinity M. E. Church, Trenton, N. J.

A line dropped to L. F. Palmer, or to this office will bring a representative to you, who will gladly show you this most interesting work.

MUCH GOOD IN HEARTY LAUGH

It Promotes the Circulation of Blood in the Carotid Arteries and Contracts the Muscles.

A British scientist who has been making a study of laughter has prepared a list of things that happen when a person gives away to audible laughter. On each side of the throat, he explains, there is an artery called the carotid. At the level of the larynx this divides; one branch, which carries blood to the brain, is called the "internal;" the other, which performs the duty of distributing blood to the face, is called the "external." These two branches are joined by the ophthalmic artery at about the level of the eyes, forming between the eyes a sort of canal.

All this in turn brings the tears of laughter and makes literal the exclamation, "He laughed until he cried." It is this communication that is the cause of the close connection between the brain and the tear glands, and really acts the same in grief as in laughter, there being but little difference in the physical results between joy and sorrow.

In reality laughter is not an easy thing. It results in a great, although involuntary, effort—an effort as great as though one were lifting a great weight—and in both cases the muscles of both the throat and stomach contract.

Now, when laughter is very hearty, when it is actually excessive, the whole body is convulsed, and this means that every muscle is contracted. Here is where people "double up" with laughter. Whether it is laughter or crying, the same thing happens, if it is an excessive emotion—that is, the blood congests the tear glands, and these glands overflow, forcing out the tears.

UNUSUAL TYPE OF BRAVERY

Not Many Husbands Would Undertake to Return Wife's Hat, Even Though He Needed Money.

The bravest man in London made his appearance in a Regent street shop one day recently.

He carried an enormous bandbox which contained an enormous hat, on which the man wanted what he considered an enormous amount of money refunded. The man was pretty mad, and, while looking for someone who had the authority to negotiate the transaction, he talked loud enough for everybody to hear.

"My wife bought this hat," he said. "She doesn't need it. She has already bought three new hats."

"She paid \$32 for this one. She has never worn it. It just came home last night. I can't afford to throw all that money away, and I want you to take the hat back. She wouldn't bring it down, so I undertook the job myself."

"By the side of that man Napoleon Bonaparte was a cringing coward," said the young woman who had made the sale. "Imagine Napoleon flouncing into a Parisian millinery shop with a hat that he didn't want Josephine to buy! He could not have done it."—London Tit-Bits.

The Evil Fly.

The true cussedness of the fly seldom shows forth till about this time in the fall. He is more numerous now than before, and seems many times a greater nuisance.

He haunts doors and windows, watching for a chance to slip inside. He promenades over your face while you are trying to get a beauty sleep in the morning. He comes from garbage can and stable to walk over every uncovered bit of food, and he seems to take a fiendish pleasure in drowning himself in the milk pitcher.

The Chinaman who hates you bad enough will kill himself on your doorstep, so that his ghost may haunt you. The fly loads himself with typhoid germs and plunges to a milky grave that he may start an inflammation in your Peyer's patches.

Fly swatting now is necessary, but palliative. The buzzing pest is too well grown to be destroyed. All that palliative. The buzzing pest is too can be done is to hold him in check, starve him by covering all garbage and stable litter, catch and kill him when possible—and resolve to make a more effective campaign against this scourge of babies next spring.—Chicago Journal.

JIM AND MILLICENT

They Were Engaged, but Jim Finally Married Another Girl.

By HAROLD CARTER.

The "Rochester" foundered many years ago off the Maine shore. She was an old slaver, put, since the war, to the happier task of running cargoes between Portland and Boston and other seaports along the Atlantic coast. Jim Purvis was the son of the Aquamuskat banker, and he was put under the care of the skipper because he was wild. His father thought a taste of seafaring life might cure him.

Perhaps it would have done, had not the "Rochester" gone to pieces in an Atlantic gale. All that was ever found of her was a piece of timber with the name on it, and an empty water-keg. It was a frequent incident; nobody remembered it after a month had gone, except the families of the bereaved men, their friends and sweethearts.

But Tillie Bent had to break the news to Millicent. The dead man's father dared not do it. Millicent was Jim's sweet heart and they were to have been married that fall. If Jim were cured of his propensity to roam, Millicent was a cold and rather heartless girl, but the old banker, who had made the match, thought her the same of all that a woman should be. The lives family was a very old one and lived in a big house in the same town as the banker. They were the two rich families of Aquamuskat.

Tillie was only the maid. She had come to school with Millicent, but when her father died and the little farm was sold there was no way in which she could earn a livelihood except by service. She was a simple country girl. With better chances she might have become anything. But she had no resources and she was not beautiful; she took the only course open to her.

When Tillie broke the news Millicent wept and lost her appetite for

Tillie was employed in the new post office. She was an old maid, the neighbors said, but then they did not know that Tillie thought of Jim every day of her life. She could not bear to picture him, the spirit of courage and youth, battling for his life in the salt waters.

Often she would stroll along the beach and watch the pounding breakers, look at the distant ships and wonder whether they, too, carried boys like Jim aboard, who had left their sweethearts behind them.

That Jim was still alive she had no notion, until the shock came. It came in the person of Millicent, white as a ghost, and trembling. She entered Tillie's cottage late in the evening.

"Tillie!" she cried. "Jim's alive!" Tillie pressed her hand to her throat, but she betrayed no emotion. For Jim's sake she must never let Millicent know.

"A letter came for me. Didn't you recognize the hand? Jim was picked up by a liner and has been a sailor all these years. He has risen to be a captain. He has a fine ship, and it has put in at Portland and he's coming home tomorrow to claim me. Tillie, you must break the news."

Tillie was expert at that.

"I love Jim," Millicent babbled on. "I'm going to get a divorce and marry him. I have plenty of money and the house is mine. We can be married by Christmas and Jim can retire from the sea and live here with me. Tillie, you will be diplomatic, won't you? He is going to meet me on the sands at four. You must be there instead."

"Yes," answered Tillie.

At four o'clock she was pacing the shore in dumb, helpless misery. She knew that Millicent had always gained her ends. Jim must have preserved her memory all those years. Millicent was beautiful, and Tillie was growing into a plain old maid. Tillie cried a little, and then she grew very brave, for somebody was coming toward her from the cliff.

But this tall, bearded man, this was not Jim. This could not be Jim! Tillie forgot the years that had passed; she looked for the boyish gait, the smile. She stared incredulously. This was not Jim.

"Tillie!"

He had taken her by the hands and was staring at her incredulously. Then he had folded her in his arms and was kissing her as he had kissed her on that memorable night. And she was allowing it, poor, treacherous Tillie. Well, Millicent had had her chance.

"Tillie! I never dreamed that you would be here. When I heard Millicent was married I felt like a free man the first time in years. I had to be honorable—you told me that—and I couldn't come home."

"You love me, Jim?"

"I have always loved you, Tillie. And now I am going to marry you."

"But Millicent loves you Jim. She feels that her marriage was all a mistake. She wants to get a divorce and marry you by Christmas. She—"

Jim was looking very grimly at her.

"Do you think—can you think I want that kind of woman for my wife, Tillie, when it's you, you, you?" Tillie couldn't answer that conundrum, so she let Jim kiss her again. (Copyright, 1913, by W. G. Chapman.)

GREAT WOMAN OF HER TIME

Margaret Roper, Cotemporary of Queen Elizabeth, Deserves to Have Her Name Remembered.

There are some great women in the age of Elizabeth as well as great men who adorned that remarkable period of adventure and literary activity, but few of whom had their name passed on to future generations. Perhaps the greatest of these was Margaret Roper, daughter of Sir Thomas Moore, who was well skilled in Greek, Latin and other languages; proficient in the sciences, as then known, and as remarkable for determination and strength of character as the great queen herself. Tradition records that Queen Elizabeth offered her a ducal coronet, which she refused lest it should be considered as a compromise for what she considered the judicial murder of her father by Henry VIII.

The head of Sir Thomas Moore was stuck on a pole and placed on London bridge, where it remained 14 days. Margaret Roper determined to gain possession of this gruesome trophy. Aubrey tells how she proceeded: "One day, as she was passing under the bridge looking up at her father's head, she exclaimed, 'That head has lain many a time in my lap; would to God it would fall into my lap as I pass under it.' She had her wish for it did fall into her lap." Aubrey's account of this miraculous happening is thus explained: She bribed a bridge keeper to throw it over the bridge when he should see her passing under in a boat, and the exclamation that she made was a cue devised between her and the bridge keeper. When summoned before the council for having the head in her possession, she boldly declared that her "father's head should never be food for fishes." For this she was imprisoned, but was soon liberated. She retained the head, which she had enclosed in a leaden box and preserved with the tenderest devotion.

TALENT SELECTED

NODAWAY CHAUTAUQUA LIST FOR NEXT YEAR ALMOST COMPLETED.

SEVERAL CHANGES MADE

Has Been Dated Two Weeks Later Than This Year to Benefit Farmer and For Cooler Weather.

Most of the talent for the Nodaway Chautauqua next year, August 15 to 23, 1913, is hired, and the list includes many prominent names. The old plan of hiring individual talent from different bureaus was followed. The entire board of directors of the Chautauqua met yesterday with representatives of the Chautauqua bureaus to select the talent, and they worked all afternoon and until 9 o'clock at night on the program. They think they have secured the best program ever had here. Some of the talent contracted for is: Senator La Follette, Senator Poinexter, Maud Ballington Booth, Dr. Green, a widely known lecturer. A good deal of care was taken to provide plenty of first class musical and entertainment numbers. Delano's Marine band will be here for two days. The Cathedral choir, an eastern organization of nine people, has been selected. The Avon Sketch club, which gives short dramatic sketches and musical numbers, will be here for two days. The Dixie Jubilee Singers, who were so popular here two years ago, will return. The Boston Music club, a double quartet, will appear on the program several times. Ratto, a noted character artist, will give an evening's entertainment. Lulu Tyler Gates, who has been here twice and drew the largest crowd two years ago that ever attended any Chautauqua here, will give a reading of one of the late popular plays. Some dates are still left open, but will be contracted for as soon as possible with the best talent obtainable.

Several changes have been made for the Chautauqua next summer. In the first place, it has been put about two weeks later than it was this year. This is done to give the farmers time to finish their threshing and in the hope that the weather will be cooler. Then the management of the Chautauqua will be divided into four departments, each with a man in charge. These departments will be advertising, financial, grounds and program. It is planned to cut down the outside expenses as much as possible in order to put more money into the program. At the meeting last night the board directors refused to accept Mr. Landon's resignation, and if he returns in time next year from his trip abroad he will probably manage the platform. At any rate, no outside man will be hired as manager.

Mr. Landon presented his accounts of this year's Chautauqua to the board last night, and they were gone over and approved by an auditing committee. There are some few little accounts that have not been settled yet, and the complete statement will not be ready until next week.

A NEW OIL COMPANY.

Harry Mutz One of the Proprietors of a Firm Which Will Transact Business Over the Entire County.

Harry Mutz is one of the proprietors of the Independent Oil company, a new business firm which will begin selling oil here sometime next month. Mr. Mutz's partner is Albert Stewart of Montague, Mich., a man who has been in the oil business for a number of years. Mr. Stewart will arrive in Maryville about the middle of October to help conduct the business.

The company has leased the ground next to the Lee elevator near the Burlington depot and will erect tanks and a warehouse there. The tanks will be set up in about six weeks. The company is to be a distributing station for the county and will handle a large amount of oil and gasoline.

Mr. Mutz will continue in charge of his text book and supply store at the Normal.

Bigger Staff in St. Joseph.

Bryant C. Biggerstaff, formerly with the Gazette, who has been in newspaper work in Indianapolis during the past few months, returned to St. Joseph yesterday morning.

Biggerstaff was assaulted by strike-breakers in Indianapolis a few weeks ago, and as a result has been suffering from internal injuries. He came home for a rest of two weeks, after which he will move his family to Indianapolis.

The return home of the newspaper man was almost simultaneous with the birth of a daughter at his home—St. Joseph Gazette.

ABOUT THE COUNTY ADVISER.

M. C. Thompson Writes in Favor of Adviser—H. C. Hiles is Against It.

In this week's Missouri Ruralist appear two letters, one from M. C. Thompson of Maryville and the other from H. C. Hiles of Burlington Junction. Mr. Thompson writes of the county adviser and how important a man he is to the farmers. Mr. Hiles is opposed to a farm adviser.

Here are the letters:

Just a few words in defense of my friend the farm adviser.

You will notice that all the kicks and slurs and discriminations against the farm adviser come from counties that have no adviser and therefore are in no position to say whether they are a benefit or a nuisance. There are some fellows who "you can't tell nothin' 'bout farming," they don't "know nothin' 'bout farmin'" and of course an adviser would be useless to them.

If Pettis county had the power to sell Sam Jordan what do you suppose they would take for him? This would be about the answer: "He's not for sale at any price. We don't care to part with him." And you would get about the same answer from the other counties that are wise enough to employ county men.

The time is coming when the farm adviser will find an office in every county as readily as the treasurer, the recorder, or any other county officer. The fertility of the soil will thereby be maintained where it is now depleted; and the hopes of a future generation brightened. If your land isn't doing well call the "land doctor" out to see. He might tell you something about it of which you never dreamed. As I never heard of any county "riffin'" their adviser they must be very desirable citizens.

If they would work for one-half the profits they would get about ten times as much salary. One county in Illinois paid their adviser \$15,000 in five years and claimed his operations profited the county \$150,000, a clear gain of \$135,000.

What is that? A poor investment or a good one? You'll have to be your own judge. Just wait and look and listen and you will soon hear his footsteps, he's on the way. It costs so little to get him and so much to do without him that he's got to come.

M. C. THOMPSON.

I wish to tell how we kept the pest known as farm adviser out of Nodaway county. Hearing that a petition would be presented to the county court asking for an adviser, I proceeded to circulate a remonstrance. I visited three towns and two public sales and obtained 809 signatures. This represented about four hours' work. I presented this remonstrance at the first day's session of the court. A silver tongued editor was present to take notes of the court's proceedings and he championed the cause of the adviser plan while I argued against it. After discussing the question for an hour I had the satisfaction of hearing the presiding judge tell my opponent that I had him "skinned a mile." We have no fears of being infested with such a pest as long as the present court attends to the business of the county.

H. C. HILES.

Miss Lena Nixon left Saturday noon for Waukegan, Ill., where she will teach the coming year.

GOOD ATTENDANCE OUT IN THE OPEN

ONE HUNDRED AT CONVENTION OF CHRISTIAN CHURCHES.

SPEAKERS INTERESTING

Several Good Addresses—County Convention Will Be Held at Gaynor City Next Year.

In spite of the heat the annual convention of the Nodaway county Christian churches, held at Burlington Junction Thursday and Friday, was well attended and a great success. There were 100 delegates there from all over the county.

The best thing on Thursday's program was the address by J. H. Morbort of St. Louis, superintendent of the Christian church orphan's home there, on "Our Benevolent Work." He told of the good work being done by the church among the orphans. The St. Louis home is the largest one of the denomination and cares for 175 children. At the close of his address the representatives of the churches of the county voted to send a car load of provisions, clothing, vegetables, canned fruits and such to the home next month.

Among other things of Thursday's session were a talk by R. E. Snodgrass of Savannah on "Our Proposed Evangelistic Campaign," an address by Rev. C. M. Chilton of St. Joseph and the Bible school session.

Friday morning O. G. Null of Pickering spoke on "Systematic Church Finance." His address was considered so practical that it will be printed in pamphlet form and distributed among the churches of the county. The president's address by Rev. C. J. Miller of Maryville and discussions of the problems of the country church filled the morning program.

The women of the Burlington Junction church served dinner at noon to the members of the convention, and everybody was seated at once at a long table in the basement of the church. The afternoon was given over to reports and the election of officers.

The officers elected were:

President—Rev. J. W. Love of Burlington Junction.

First vice president—Rev. W. H. Rust of Burlington Junction.

Second vice president—Rev. J. C. Polly of Skidmore.

Treasurer—George L. Wilfley of Maryville.

Secretary—O. G. Null of Pickering.

Superintendent of Bible schools—Rev. E. W. Killion of Pickering.

Superintendent of Endeavor societies—H. J. Becker of Maryville.

President of the C. W. B. M.—Mrs. J. D. Frank of Maryville.

The treasurer's report showed a balance of \$54 on hand.

The convention next year will be held in Gaynor City.

Hints That Help Housewives.

When eggs are scarce and they are needed for puddings, a dessert spoonful of cornstarch may be substituted for one egg.

Dampness will tarnish brass articles. They should be kept in a dry, cool atmosphere.

A good flavoring for syrups, jellies and preserves is made with oranges and lemon peel.

The best results are obtained from a kerosene lamp if the bowl is filled with oil only to within an inch of the top.

The water in which cabbages, onions, turnips or Brussels sprouts are cooked should be changed every quarter of an hour. Of course, the fresh water used should be boiling when poured over the vegetables. The change of water makes the vegetables less strong in flavor.

The water used in making bread should be scalded and then allowed to become lukewarm before being mixed with the other ingredients. Milk, too, should be brought to the scalding point and then cooled before being used in bread making.

A few drops of rosewater added to almonds will prevent their oiling when chopped.

After peeling onions rub your hands with celery or parsley. It will counteract the odor.

A delicious sandwich filling is made from one part chopped almonds and two parts of shredded or grated celery, with a dash of salt. Moisten the mixture with mayonnaise.

Mr. and Mrs. J. A. Hartman returned Thursday from a trip to Oelrichs, South Dakota, and Great Falls, Montana. Mr. Hartman reports good crops there, also everything booming.

After Destroying Wooden Pullmans Huge Engine Came to Stop, Upright.

© 1913, by American Press Association.

The White Mountain Special's heavy locomotive stopped still upright after it had smashed the third car of the Bar Harbor express. The front of the engine was splintered. The rear Pullman car, which was wooden, was shattered in thousands of splinters and hurled aside by the rush of the blast.

AND IT MAY RAIN

A SLIGHT HOPE IN THE FORECAST FOR MISSOURI.

SITUATION IMPROVED

Better Feeling Over the Water Situation as Difficulties Are Conquered—Some Chance For Ice.

There is hope in the forecast, for while the prediction is for generally fair, there is the saving qualification of local thunderstorms probable. It is therefore possible that some portions of Nodaway county may be partially wetted down and cooled off. Then, too, the city officials say there is water enough in sight in the river to supply the town for a month at the rate water is being used at the present time. The ice situation is rather more uncertain. Several of the local business men secured small shipments by express from St. Joseph Friday night, and it is probable that ice cream cones will be on sale for a while longer. The saloons were among the fortunate ones who were able to get ice. Two or three Maryville men who were in St. Joseph Friday were also able to purchase small quantities and these were sent up Friday night by express. One man claims he has made arrangements whereby he is to get a shipment two or three times a week, and that fact is not to be classed among the luxuries at his house. The light plant is still being run on water hauled in the tank wagons, and Manager Hellmers says there is no change in the situation or prospects as far as the light plant is concerned. The water service in the city is much improved over the first part of the week, the water being turned on at more frequent and longer periods, and if the estimate as to the amount of water in the bed of the river is correct further improvement may be looked for.

Another inch of water was gained in the reservoir yesterday. The fifteen men sent by the Burlington arrived this morning and are at work on the river and their work has increased the flow of water to the pumping station. All this has made it possible to pump water all day, and Manager Denny says that he thinks he can give all-day service from now on. No water will be pumped at night, however. The ice question remains the only serious part of the situation here.

The local dealers have not been able to get any shipments of ice yet, but the small private shipments have relieved conditions slightly with some people. The Everhart well is still choked with the bit which fell into it Thursday night, and there is no hope of getting it out.

F. G. Shoemaker gives out the best ice news heard here. He has been trying to locate a supply of ice for several days, believing that there was surely some place from which he could get it. Yesterday he heard of fifteen car loads that were for sale and telegraphed for it at once. He has received no answer yet, so does not know whether he put his order in in time or not. If the ice is sold to him it will be here Monday, but Mr. Shoemaker does not want to raise any false hopes and will promise nothing.

The laundry has been running yesterday and today and will probably continue to run next week.

ONLY 100 TODAY.

A Drop in Temperature—But Not Much.

Were you hot today? You shouldn't have been, for it is the coolest day we have had for a week. You don't believe it; well, you'll have to, for the weather man says it was only 100 today. That's it, 100 at 3 o'clock.

The Orchard-Lands of Long Ago.
O drowsy winds awake and blow
The orchard lands of Long Ago!
The snowy blossoms back to me,
And all the buds that used to be!
Blow back along the grassy ways
Of truant feet, and like the haze
Of happy summer from the trees
That trail their tresses in the seas
Of grain that float and overflow
The orchard-lands of Long Ago!

Blow back the melody that slips
In lazy laughter from the lips
That marvel much if any kiss
Is sweeter than the apple's is.
Blow back the twitter of the birds—
The lisp, the titter, and the words
Of merriment that found the shine
Of summer time a glorious wine
That drenched the leaves that loved
It so

In orchard-lands of Long Ago!

O memory! alight and sing
Where rosy-bellied pippins cling,
And golden russets glint and gleam
As in the old Arabian dream
The fruits of that enchanted tree
The glad Aladdin robbed for me!
And, drowsy winds, awake and fan
My blood as when it overran
A heart ripe as the apples grow
In orchard-lands of Long Ago!

Democratic Weather.

There's the devil to pay with the weather

Since the Democrats got into power,
For seven long weeks and then some
We have waited in vain for a shower.
The mercury has soared high and higher:

At noon it is plum out of sight,
And every house in our village
Is as hot as an oven at night.
The rivers have run out of water,
The fish are all learning to walk,
And our oldest inhabitant living
Is now commencing to talk

Of a drought way back in the forties
When he can remember quite well
How it was a right smart more windy
With a mighty sight longer dry spell.

So we've got to do something at once,
folks,
And knowing full well who's to
blame.

Let's all rise up in our midst, folks,
And stop the whole Democratic
game.

It is surely malfeasance of office
To bring on a season like this.
But think of three, more that follow,
Three summers to sizzle and hiss.
So, turn out the rascals at once, folks,
Our duty's quite certain and plain;
With the G. O. P. back in the harness
We're sure to get plenty of rain.

New Auto Headlight.

A new automobile headlight has been brought out in France which is designed on the lines of the human eye and is entirely different from any which have heretofore been in use. The direction of the rays is under constant control, the lamp moving in its socket in the same manner as the human eyeball. Two small clamps, controlled by thumb screws from the interior of the car, hold the lamp in position in any desired direction, while the handle itself is used in turning the light rays to the spot they are needed. Signposts at the side of the road or the low lying milestones are thus brought within reach of the rays, while in their lowest position they even throw light into the blood, fighting up the motor, magneto and carburetor. By removing the two small clamps entirely, the whole lamp can be taken out of the socket and used as a "trouble lamp" inside or outside the machine.

WHEN IS MARRIAGE COMPLETE?

Some Interesting Questions Arise as Result of an Interrupted Ceremony.

New York Despatch.—At just what point in the marriage ceremony do the parties to it become legally husband and wife?

Listen: Edmund and Marguerite (this is a true story) stood before the white robed minister while a hundred guests looked on. The good man read from his prayer book the opening words of the familiar service, beginning, "Dearly beloved, we are gathered together—" looked the bridegroom in the eyes and said:

"Edmund, wilt thou have this woman to be thy wedded wife, to live together after God's holy ordinance in the holy estate of matrimony; wilt thou love her, comfort her, honor and keep her in sickness and in health, and forsaking all others, keep thee only unto her so long as ye both shall live?"

The bridegroom replied distinctly: "I will," and fell dead.

The tragic episode, enacted recently in this state, has started an avalanche of complications. The stricken bridegroom was a man of wealth. The bride was of slender means.

Friends of the strangely widowed little woman declare she has a right to one-third of Edmund's real property, being in their opinion not only morally and ethically his widow, but legally as well.

By his "I will" they contend Edmund subscribed unequivocally to the marriage contract, the mere fact that the ceremony was not completed having no real bearing on the case.

Those who oppose this view declare a mutual vow is necessary to make a marriage legal. A fragmentary religious formula, in which the bride has taken no verbal part, cannot, they say, be construed as basis for a claim of dower.

Is Marguerite Mrs. Edmund? Or still Miss Marguerite?

The minister who was performing the ceremony shook his head and declined to express an opinion, having no precedent to guide him.

A lawyer among the wedding guests thought the marriage would hold good, although never had he known a similar case, nor was he posted as to recently enacted marriage laws.

Over at the marriage license bureau in the city hall it is the opinion that Marguerite is still unwed. Clerk Stuart Harris has seen many cases of interrupted marriage ceremonies and thinks no court would decide that the mere signified intention of the groom is sufficient to constitute legal marriage.

"I believe," said he, through his unsentimental little cross-cross wicket, "that a pronouncement by the minister of justice that the couple are husband and wife must be made before a marriage is completed.

"Common law marriage, of course, has been done away with, only those common law marriages being held legal which antedated the new amendment. It is not enough that two persons simply declare themselves man and wife.

"They may be married, however, by various forms. It might possibly be held that the statement by the groom that he would have the woman for his wedded wife, to love, comfort and keep, etc., constituted a certain form of marriage ceremony, but I don't think so.

"I have known of couples coming to the city hall for the license and marriage ceremony in the aldermen's chambers where the bride lost her nerve and refused to take her vows when the questions were put to her.

"I have known some of them actually to run away in the midst of the ceremony. These, so far as I know, were never held to be legal marriages. But it would take a lawyer to pass definitely upon such an unusual case."

E. Mortimer Boyle, a widely known lawyer, says that Marguerite and Edmund were not married by the interrupted ceremony.

"In the state of New York," says Mr. Boyle, "there is a general rule applying in such cases that, in the presence of the magistrate or clergyman and at least one witness, both parties to the marriage must declare they take each other as husband and wife.

"It would, therefore, seem clear that the man and woman in this most extraordinary case were no more married than if the bridegroom had died an hour before the ceremony was begun."

Mr. Boyle knows of no precedent for the case of Edmund and Marguerite, whose friends declare it will be brought before a judge and decided once and for all, no matter what anybody thinks about it.

GHOULS ROB BODIES IN NEW HAVEN WRECK

Witness Tells of Seeing Man Cut
Finger of Dying Woman.

New Haven, Conn., Sept. 6.—That there were wholesale and disgraceful robberies from dead bodies at the railroad wreck at North Haven is declared by Coroner Mix in a report to Chief of Police Smith, requesting him to apprehend the culprits.

Coroner Mix said during his inquest witnesses told of men cutting fingers off dead passengers to get rings, and of persons searching clothing of injured passengers to secure money or valuables.

As soon as this testimony was given the coroner had Chief Smith come to him and to that official was given some of the statements brought out, with descriptions given of the alleged thieves. Shortly afterward four detectives were sent out.

Engineer Miller of the White Mountain testified that he had heard a woman groaning, and looking around he saw a man deliberately cut off her finger, on which were several rings. He also saw a man strip a dead woman's hand, and afterward he saw a man lean over an injured woman and snatch away a locket.

Other railroad men gave corroborative testimony, and one of them told of a man who, with a pillowcase, went about picking up jewelry, purses and other articles of value. When others saw what he was doing they chased him across the yards.

In the investigation before the interstate commerce commission three witnesses testified that engineers of the New Haven railroad frequently pass danger signals of the "banjo" type in foggy weather without stopping.

It was further testified that the White Mountain express the train which plunged into the Bar Harbor express, was barely saved from colliding with the Bar Harbor train before the New Haven disaster at a point between Springfield and Hartford.

The two trains involved were the last of a procession of six which that morning passed Wallingford, three miles north of the wreck, within a period of thirty-two minutes. The White Mountain was making fifty-two miles an hour at Wallingford.

DUN'S REVIEW OF TRADE

Sentiment Cheerful Despite Certain Unfavorable Conditions.

New York, Sept. 6.—Dun's Review of Trade says:

Early promise of another year of remarkable crops will not be fully realized, yet the purchasing power of the agricultural community is sustained by high prices for the leading farm products. Official confirmation of considerable deterioration in cotton caused a sharp rise in that staple and corn advanced on a continuance of hot, dry weather.

The reduced harvests are calculated ultimately to have some effect upon railroad freight traffic, but it is gratifying that sentiment remains cheerful in spite of the less favorable outlook in certain directions.

While the delay in the adoption of the pending tariff bill acts as a check, business nevertheless has emerged from its customary summer lethargy and with the approach of the fall season the revival of activity is becoming more pronounced.

Every Man's Home.

Every man's home is the best old home,

And every man's wife the sweetest;
Every man's child is the best little child,

The best behaved and the neatest;
Every man's baby is better than all

The babies that ever were born—
And just so it's babies and wives and homes,

Why, let 'em all blow their horn!

Every man's wife makes the finest preserves,

And every man's wife bakes bread
That beats all the bread that ever was made

From Hatteras to Stony Head.

Every man's home is the place to see
The finest housekeeping on earth—
And just so it's bread and preserves and home,

Let 'em keep on with their mirth!

When every man thinks that his own home's best,

And his own wife sweetest, why then
We'll swing back unto the golden dream
Of a heaven on earth again.

And isn't it beautiful, fine, and sweet,
That faith of a man in his child,
And his wife and his home and his simple life

That he boasts of undefiled!

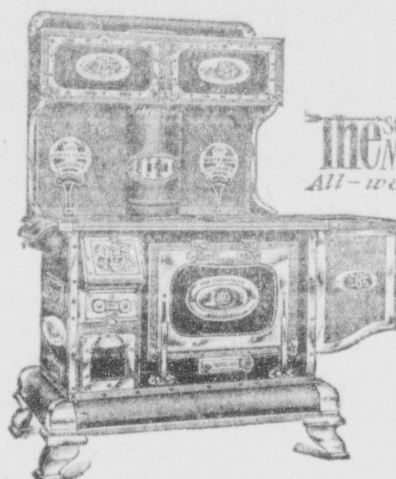

When every man's home is the sweetest place

On earth for a man to be;
When every man's wife is the sweetest wife

In all the world to see;
When every man's child is the dearest child

That ever drew breath—ah, then,
We shall have better children and women and homes,
And a darned sight better men!

Plan Unique and Correct Plan.

Many guide books of literature have been made. But their plan has not been the best. Editors seem to have labored to include too much, fearing to offend some tradition or school. But Mr. Stoddard has in person through thirty years searched in all lands for the finest pieces of literature that give us the best product of only the best writers of all times. While others have included as many as 2,000 authors, Mr. Stoddard has found that one-fifth of that number represent the universe of human culture and of literary ideals. He has reduced 80 per cent the universe of human culture and of literary ideas. He has reduced 80 per cent the wear and tear upon the time and energy of the individual who seeks intellectual culture. Mr. Stoddard admits but 400 writers.

CAMINETTI IS FOUND GUILTY

Convicted on One Count of Mann Law Violation.

JURY OUT FOR THREE HOURS.

Eight Ballots Taken, the Vote Standing From the First Ten to Two Against His Acquittal—Defendant Takes Verdict Lightly.

San Francisco, Sept. 6.—Farley Drew Caminetti, son of the commissioner general of immigration, was found guilty on one count of the indictment charging him with violation of the Mann white slave traffic act.

The jury was out three hours and took eight ballots. From the first the vote stood 10 to 2 for conviction and finally the two recalcitrants agreed to compromise by finding a verdict of guilty on one of the four counts charged.

Bail in the sum of \$10,000 was furnished by Frank Freeman of Willows, Cal., and G. Bacigalup of San Francisco and was ready to be filed with the United States marshal when the verdict was announced. Sentence will be pronounced Wednesday, the day set for sentencing Maury I. Diggs, jointly indicted with Caminetti and convicted on four counts. Exceptions to the charge of Judge Van Fleet as a whole and in part were taken by counsel and a petition for an appeal will be filed as was announced in the case of Diggs.

Caminetti took the verdict lightly, smiled a forced smile and nudged his brother jocularly. First he lifted his little daughter, Naomi, who was playing at his feet, and placed her carefully in her mother's lap. Then he shook hands with his lawyers and with Diggs, who had been sitting by.

His mother and wife showed no emotion. They sat with lowered heads, gazing into their laps.

WESTERN FUEL FINED

San Francisco, Sept. 6.—Judge Maurice T. Dooling, in the United States district court, ordered a fine of \$2,000 imposed on the Western Fuel company, and directed the imprisonment of David C. Norcross, secretary of the company, for contempt, because of the refusal to produce the company's books before the federal grand jury, which is investigating alleged customs weighing frauds.

Counsel for the Western Fuel company and Secretary Norcross asked that execution of the court's orders be deferred until Monday, and this was granted by Judge Dooling.

GREAT FIRE IN HOT SPRINGS, ARK.

Loss \$10,000,000 and 2,000 Persons Homeless.

Hot Springs, Ark., Sept. 6.—Fire, which started in a negro cabin, is slowly dying out at the foot of West mountain, the southern extremity of Hot Springs, today, after reducing to a smoldering mass of wreckage an area more than a mile in length and from seven to ten blocks wide in the eastern section of the city. The monetary loss is estimated at \$10,000,000.

In the path of the flames were houses, hotels, a number of more pretentious residences and public buildings, which are in ashes.

It is estimated that 2,000 persons are homeless. So far as can be ascertained, there were no fatalities and the few persons hurt suffered only minor injuries.

Among the buildings destroyed were: The city's light, water and power plants; county court house, high school building, Park hotel, Moody hotel, Princess hotel, Iron Mountain railroad station and shops, the Arkansas sanitarium and smaller buildings by the hundreds were reduced to ashes.

But few of those whose homes were burned saved any of their household effects and guests of the hotels gave little heed to their valuables and luggage in their efforts to escape the flames.

The burned district for some distance skirts the business section and several times the shifting winds headed the fire for the principal business section, but each time the free use of explosives and an opportune change in the wind saved it.

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die. At last my husband got me a bottle of Cardui, and it helped me; so he got me more. After I had taken the second bottle, I was entirely well. I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health. As a remedy for woman's ills, it has a successful record of over 50 years. Your druggist sells it. Please try it.

CANADA DELAYS OUSTING OF THAW

Writ Saves Matteawan Fugitive From Deportation.

ORDER BY BOARD OF INQUIRY.

Prisoner to Be Produced Before King's Bench Sept. 15—Jerome Placed in Jail for Playing Poker—Is Released Later on Bail.

Coaticook, Que., Sept. 6.—Harry K. Thaw will be produced before the full king's bench, appeal side, at Montreal, Sept. 15. Meantime he will be detained here, or at Sherbrooke, or taken to Montreal on a moment's notice, at the discretion of the immigration authorities. Two of his counsel, J. N. Greenshields and N. K. Laflamme, obtained a double writ—habeas corpus and prohibition—at Montreal and whirled into Coaticook on a special train, where not long before the immigration authorities had ordered Thaw's deportation from the Dominion.

Counsel for Thaw who had remained in Coaticook had announced that the writ was returnable forthwith and a special train was made up to take the prisoner to Montreal. A great crowd collected about the station where Thaw was confined and it was not until later that it became known that he might remain here several days, because the writ is not returnable until Sept. 15.

Cheers When Writ Arrives.

There were cheers when the writ arrived and more cheers whenever Thaw appeared at the window of the detention room. When the special train pulled out for Montreal without Thaw aboard there were cries of disappointment, then more cheers when the news got abroad that for Thaw the new movement meant ten days' delay. Not only by the writ secured in Montreal, but by the action of his attorneys on appeal did Thaw block his deportation. In addition he had the pleasurable knowledge that his old enemy, William Travers Jerome, had been arrested, charged with gambling.

If ever a little town produced "sensations," Coaticook did. First came Jerome's arrest and release on bail on a charge that he had played poker on railroad property with some newspaper men. Then came word that Thaw's lawyers had obtained in Montreal the writ demanding his production in court there.

Deportation Ordered.

Meantime the special board of inquiry ordered Thaw's deportation to Vermont under two clauses of the immigration act, namely that he had entered Canada by stealth, and within five years had been an inmate of an institution for the insane. From both these decisions Thaw's lawyers appealed.

The immigration officers, headed by E. Blake Robertson, were powerless, and Thaw remained in the detention room over the Grand Trunk railway station. Finally the Thaw lawyers in Montreal chartered a special train and came here with the writ itself, serving it in the afternoon.

Jerome's arrest was due to two causes and was not prompted in any way by the Thaw lawyers. One and all, they expressed indignation at the move and said they were ready to aid him. What the arrest really signified was the state of public opinion here was decidedly pro Thaw and more decidedly anti-Jerome.

HEAT WAVE CONTINUES

Will Last Into Next Week in Kansas and Missouri.

Kansas City, Sept. 6.—Extreme heat prevailed in Missouri, Kansas and Oklahoma again, with temperatures ranging toward the 100 mark. Reports of suffering from lack of water in various localities continue. The United States weather bureau report indicates are that there will be no change before next week.

Reports from Topeka say the drought has worked about all the damage possible to crops and that the problem now in afflicted sections is where to get water to drink. Brandy lake, near Hutchinson, is dry for the first time in the memory of the oldest settler.

At Joplin, Mo., school sessions are limited to the morning hours because of the heat.

Beer Costs Player Six Hundred Bonus. St. Louis, Sept. 6.—The most expensive glass of beer ever sold over a local bar was sold to Outfielder Ping Bodie of the Chicago Americans. Bodie was notified that the beer would cost him \$500 in addition to the 5 cents he paid the bartender. When Bodie signed with the Chicago team last spring he promised not to take a drink the present season, and if he kept his promise he was to receive a bonus of \$500.

Cotton Pit in Panic.

New York, Sept. 6.—Reports that the Democratic caucus of the senate had agreed to the proposed tax rate of one-tenth of 1 per cent to be laid on trading in cotton futures, threw the local cotton market into a semi-demoralized condition. Prices broke \$2 per bale from their high level of the day under general liquidation and the market closed feverish at a net loss of \$2 to 42 points.

GREAT LITERARY WORK

Some Opinions of Great Critics and Educators on the Stoddard Library

The Stoddard Library gives to parents and children, who have a keen desire for education and wholesale entertainment the best thoughts in the best works of the finest minds of the world's history. Any work by Mr. Stoddard is deserving of careful consideration, but in the Stoddard Library I believe the author has accomplished his greatest good.

WM. M. HYMAN,
Principal Woodland Schools, California.

Mr. Stoddard is a born entertainer. He knows well what will entertain the average mind, and into this work he has put his mature thought that the need felt might be met; and with it methods may impress their children's minds with the best, in a most interesting and entertaining way.

REV. C. DONE, Ph. D.,
Pastor Presbyterian Church, Portland, Me.

I have examined Mr. Stoddard's library with care and take pleasure in endorsing the general principles of its selection as well as the actual results which have been achieved.

DR. HAROLD DEWITT FULLER,
Dept. of Comparative Literature, Harvard University.

To own and read the Stoddard Library is to form acquaintance with the good and great in literature. Nobody can afford to miss the joy and

profit derived from such acquaintance.

G. A. SCOTT,
Pastor M. E. Church, Des Moines, Ia.
I congratulate John L. Stoddard on his bringing together in "The Stoddard Library" such a magnificent collection of "selections" from the world's best literature.

W. M. DAVIDSON,

Supt. Schools, Omaha, Neb.

After a careful examination, page by page, I find that the Stoddard Library is the greatest literary compilation of the day. It is a peerless grouping of the best productions of the greatest writers. It is the finest literature of the richest gems from the wealthiest minds. It runs the whole gamut of literature achievement. The Stoddard Library furnishes entertainment to the class who like to listen to the story-music of the laugh makers. It is companionship with the most influencing characters of all ages to those who feel the blighting touch of loneliness. It is a brilliant shining faith-light to those who are walking the darkened ways of religious doubt. To those who wish to learn, it is "an intellectual power through words and things," and deserving of the highest praise and widest circulation.

CHARLES H. ELDER,
Pastor Trinity M. E. Church, Trenton, N. J.

A line dropped to L. F. Palmer, or to this office will bring a representative to you, who will gladly show you this most interesting work.

MUCH GOOD IN HEARTY LAUGH

It Promotes the Circulation of Blood in the Carotid Arteries and Contracts the Muscles.

A British scientist who has been making a study of laughter has prepared a list of things that happen when a person gives away to audible laughter. On each side of the throat, he explains, there is an artery called the carotid. At the level of the larynx this divides; one branch, which carries blood to the brain, is called the "internal;" the other, which performs the duty of distributing blood to the face, is called the "external." These two branches are joined by the ophthalmic artery at about the level of the eyes, forming between the eyes a sort of canal.

All this in turn brings the tears of laughter and makes literal the exclamation, "He laughed until he cried." It is this communication that is the cause of the close connection between the brain and the tear glands, and really acts the same in grief as in laughter, there being but little difference in the physical results between joy and sorrow.

In reality laughter is not an easy thing. It results in a great, although involuntary, effort—an effort as great as though one were lifting a great weight—and in both cases the muscles of both the throat and stomach contract.

Now, when laughter is very hearty, when it is actually excessive, the whole body is convulsed, and this means that every muscle is contracted. Here is where people "double up" with laughter. Whether it is laughter or crying, the same thing happens, if it is an excessive emotion—that is, the blood congests the tear glands, and these glands overflow, forcing out the tears.

UNUSUAL TYPE OF BRAVERY

Not Many Husbands Would Undertake to Return Wife's Hat, Even Though He Needed Money.

The bravest man in London made his appearance in a Regent street shop one day recently.

He carried an enormous bandbox which contained an enormous hat, on which the man wanted what he considered an enormous amount of money refunded. The man was pretty mad, and, while looking for someone who had the authority to negotiate the transaction, he talked loud enough for everybody to hear.

"My wife bought this hat," he said. "She doesn't need it. She has already bought three new hats."

"She paid \$32 for this one. She has never worn it. It just came home last night. I can't afford to throw all that money away, and I want you to take the hat back. She wouldn't bring it down, so I undertook the job myself."

"By the side of that man Napoleon Bonaparte was a cringing coward," said the young woman who had made the sale. "Imagine Napoleon flouncing into a Parisian millinery shop with a hat that he didn't want Josephine to buy! He could not have done it!"—London Tit-Bits.

The Evil Fly.

The true cussedness of the fly seldom shows forth till about this time in the fall. He is more numerous now than before, and seems many times a greater nuisance.

He haunts doors and windows, watching for a chance to slip inside. He promenades over your face while you are trying to get a beauty sleep in the morning. He comes from garbage can and stable to walk over every uncovered bit of food, and he seems to take a fiendish pleasure in drowning himself in the milk picher.

The Chinaman who hates you had enough will kill himself on your doorstep, so that his ghost may haunt you. The fly loads himself with typhoid germs and plunges to a noisily grave that he may start an inflammation in your Peyer's patches.

Fly swatting now is necessary, but palliative. The buzzing pest is too well grown to be destroyed. All that palliative. The buzzing pest is too can be done is to hold him in check, starve him by covering all garbage and stable litter, catch and kill him when possible—and resolve to make a more effective campaign against this scourge of babies next spring.—Chicago Journal.

JIM AND MILLICENT

They Were Engaged, but Jim Finally Married Another Girl.

By HAROLD CARTER.

The "Rochester" foundered many years ago off the Maine shore. She was an old slaver, put, since the war, to the happier task of running cargoes between Portland and Boston and other seaports along the Atlantic coast. Jim Purvis was the son of the Aquamuskat banker, and he was put under the care of the skipper because he was wild. His father thought a taste of seafaring life might cure him.

Perhaps it would have done, had not the "Rochester" gone to pieces in an Atlantic gale. All that was ever found of her was a piece of timber with the name on it, and an empty water-keg. It was a frequent incident; nobody remembered it after a month had gone, except the families of the bereaved men, their friends and sweethearts.

But Tillie Bent had to break the news to Millicent Ives. The dead man's father dared not do it. Millicent was Jim's sweet heart and they were to have been married that fall. If Jim were cured of his propensity to roam, Millicent was a cold and rather heartless girl, but the old banker, who had made the match, thought her the same of all that a woman should be. The Ives family was a very old one and lived in a big house in the same town as the banker. They were the two rich families of Aquamuskat.

Tillie was only the maid. She had come to school with Millicent, but when her father died and the little farm was sold there was no way in which she could earn a livelihood except by service. She was a simple country girl. With better chances she might have become anything. But she had no resources and she was not beautiful; she took the only course open to her.

When Tillie broke the news Millicent wept and lost her appetite for

Tillie was employed in the new post office. She was an old maid, the neighbors said, but then they did not know that Tillie thought of Jim every day of her life. She could not bear to picture him, the spirit of courage and youth, battling for his life in the salt waters.

Often she would stroll along the beach and watch the pounding breakers, look at the distant ships and wonder whether they, too, carried boys like Jim aboard, who had left their sweethearts behind them.

That Jim was still alive she had no notion, until the shock came. It came in the person of Millicent, white as a ghost, and trembling. She entered Tillie's cottage late in the evening.

"Tillie!" she cried. "Jim's alive!" Tillie pressed her hand to her throat, but she betrayed no emotion. For Jim's sake she must never let Millicent know.

"A letter came for me. Didn't you recognize the hand? Jim was picked up by a liner and has been a sailor all these years. He has risen to be a captain. He has a fine ship, and it has put in at Portland and he's coming home tomorrow to claim me. Tillie, you must break the news."

Tillie was expert at that.

"I love Jim," Millicent babbled on. "I'm going to get a divorce and marry him. I have plenty of money and the house is mine. We can be married by Christmas and Jim can retire from the sea and live here with me. Tillie, you will be diplomatic, won't you? He is going to meet me on the sands at four. You must be there instead."

"Yes," answered Tillie.

At four o'clock she was pacing the shore in dumb, helpless misery. She knew that Millicent had always gained her ends. Jim must have preserved her memory all those years. Millicent was beautiful, and Tillie was growing into a plain old maid. Tillie cried a little, and then she grew very brave, for somebody was coming toward her from the cliff.

But this tall, bearded man, this was not Jim. This could not be Jim! Tillie forgot the years that had passed; she looked for the boyish gait, the smile. She stared incredulously. This was not Jim.

"Tillie!"

He had taken her by the hands and was staring at her incredulously. Then he had folded her in his arms and was kissing her as he had kissed her on that memorable night. And she was allowing it, poor, treacherous Tillie. Well, Millicent had had her chance.

"Tillie! I never dreamed that you would be here. When I heard Millicent was married I felt like a free man the first time in years. I had to be honorable—you told me that—and I couldn't come home."

"You love me, Jim?"

"I have always loved you, Tillie. And now I am going to marry you."

"But Millicent loves you, Jim. She feels that her marriage was all a mistake. She wants to get a divorce and marry you by Christmas. She—"

Jim was looking very grimly at her.

"Do you think—can you think I want that kind of woman for my wife, Tillie, when it's you, you, you?" Tillie couldn't answer that conundrum, so she let Jim kiss her again. (Copyright, 1913, by W. G. Chapman.)

GREAT WOMAN OF HER TIME

Margaret Roper, Cotemporary of Queen Elizabeth, Deserves to Have Her Name Remembered.

There are some great women in the age of Elizabeth as well as great men who adorned that remarkable period of adventure and literary activity, but few of whom had their name passed on to future generations. Perhaps the greatest of these was Margaret Roper, daughter of Sir Thomas Moore, who was well skilled in Greek, Latin and other languages; proficient in the sciences, as then known, and as remarkable for determination and strength of character as the great queen herself. Tradition records that Queen Elizabeth offered her a dual coronet, which she refused lest it should be considered as a compromise for what she considered the judicial murder of her father by Henry VIII.

The head of Sir Thomas Moore was stuck on a pole and placed on London bridge, where it remained 14 days. Margaret Roper determined to gain possession of this gruesome trophy. Aubrey tells how she proceeded: "One day, as she was passing under the bridge looking up at her father's head, she exclaimed, 'That head has lain many a time in my lap; would to God it would fall into my lap as I pass under it.' She had her wish for it did fall into her lap." Aubrey's account of this miraculous happening is thus explained: She bribed a bridge keeper to throw it over the bridge when he should see her passing under in a boat, and the exclamation that she made was a cue devised between her and the bridge keeper. When summoned before the council for having the head in her possession, she boldly declared that her "father's head should never be food for fishes." For this she was imprisoned, but was soon liberated. She retained the head, which she had enclosed in a leaden box and preserved with the tenderest devotion.

REV. COX RETURNS

APPOINTED TO M. E. CHURCH FOR COMING YEAR.

THREE CHANGES MADE

Pastorates in Pickering, Barnard and Clearmont Changed—Rev. Christy Back to Maryville District.

Rev. Gilbert S. Cox has been returned to Maryville as pastor of the First M. E. church of this city for the coming year. The appointment was made Monday at the Methodist Episcopal conference in session at Trenton.

There are only three changes in the pastorates in the county. They are as follows:

Rev. S. P. Stillam to Pickering, to succeed Rev. H. J. Duckert.

Rev. J. L. Beldy to Barnard to succeed Rev. W. E. Royston.

Rev. N. E. Bottom to Clearmont, to succeed Rev. W. F. Wiley.

The other appointments made in the county follow:

Burlington Junction, Rev. L. C. Sappanfield.

Elmo, Rev. Holliday.

Graham, Rev. H. K. Morga.

Hopkins, Rev. T. C. Taylor.

Quitman, Rev. H. S. Baker.

Skidmore, Rev. C. H. Sauseman.

Rev. W. B. Christy of this city has also been returned as district superintendent of the Maryville district.

The return of Rev. Cox and Dr. Christy to Maryville will be well received. They are very popular with the church organization as well as the other church people in the city. Rev. Cox has been pastor of the Maryville church for one year, and during that time much progress has been made, being one of the successful years in the history of the church.

The conference will meet in Maryville next year, probably about the latter part of September.

Dr. J. T. Pierce, formerly a resident of this city, as presiding elder of the Maryville district, has been transferred from Tarkio to the Central Illinois conference, and Warren S. Welch from the latter conference to the Missouri body.

At the conference at Trenton, Dr. E. P. Scarborough of Macon, the fraternal delegate from the Methodist Episcopal church, South, extending greetings to the ministers, said:

"I believe the time is not far distant when the church shall no longer be divided."

Bishop Charles W. Smith of St. Louis responded:

"We are Americans, and an American thinks for himself. I do not agree with all men of my denomination. In some things my opinion leans to the views of the Southern Methodists more than to those of my own church. There is no doctrinal difference in the fourteen denominations of Methodism. It is all a matter of church government."

TO HAVE RED LETTER DAY.

The First M. E. Church to Have Special Next Sunday to Greet Rev. Cox, Who Has Been Returned.

Arrangements are being made for a red letter day at the First M. E. church on next Sunday as a reception to greet Rev. Gilbert S. Cox, the pastor, who has been sent back by the conference for the coming year. This will be Rev. Cox's first Sunday of the conference year.

Efforts are being made to have an attendance of 600 at Sunday school on that day. Sunday the school had an attendance of 304. The Myrtle Tree church Sunday school, Albert Dowden, superintendent, and the Mt. Airy church Sunday school, Frank Schweikhardt, superintendent, have been invited to attend the Sunday school of the First M. E. church, and have accepted the invitation. From thirty-five to fifty autos will bring in the Sunday school children and those who are wanting to attend the services from these two churches that are located close to the city. J. L. Moore is in charge of the autos.

A special program will be given at Sunday school and also at the morning service.

JOHN BROWN DIES

DEATH CAME TO NODAWAY COUNTY PIONEER THIS MORNING.

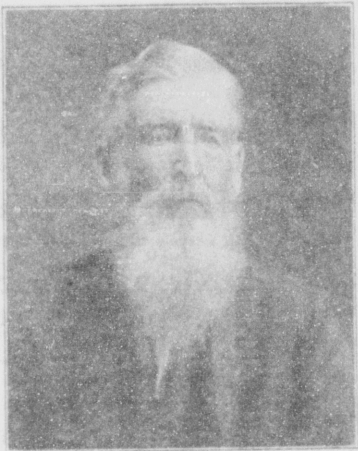

SETTLED HERE IN 1841

Near Where the Town of Graham Now Is—Was the Father of Mrs. E. E. Tilton of This City.

John Brown, the father of Mrs. E. E. Tilton of this city, died at the home of his daughter, Mrs. Oren Masters, living near Skidmore, about 11 o'clock Monday morning. Mr. Brown had been in ill health for some time and his death had been expected.

No arrangements have been made for the funeral services, but they will probably take place at Skidmore.

Mr. Brown was one of the oldest settlers in the county. He was born in Jackson county, Tennessee, on August 23, 1824. When he was about 10 years old he came to Missouri with his parents and settled in Clinton county, and then on to Platte county. In 1841 they came to where the town of Graham is now located, and the father and children secured a section of government land, when there were but few settlers. At that time they did not

think the prairies could or would be settled. After going a mile or two from where they settled no more houses were seen until Maryville was reached. There were no Indian trails to Maryville, and of course no bridges. The vicinity of Graham was then a part of Andrew county. There were no schools.

John Brown was married on February 6, 1845, to Priscilla Bohannon, where the town of Skidmore now stands, just west of where the Christian church is now located; that was about thirty-five years before the town was started. Mr. Brown followed farming all of his life, with the exception of a few years devoted to blacksmithing. He went to California during the gold excitement and remained on the Pacific coast two years.

During the war Mr. Brown was a soldier in the confederate army, being under Captain Burris. He took part in the fights at Blue Mills and Lexington. He served four years or through the war, and was honorably discharged. After the war he went to Nebraska where he farmed several years and then came back to Nodaway county, where he had made his home since.

Five children survive who are Mrs. Tilton of this city, Mrs. Oren Masters of near Skidmore, George Brown of Edgewood, S. D.; Jack Brown of Southern Missouri, and Frank Brown of near Skidmore. Mr. Brown was a member of the Masonic fraternity, and was probably the oldest Mason in the county, having membership, and at the age of 14 joined the Cumberland Presbyterian church. Mrs. Brown's death occurred on November 4, 1877.

FINE ATTENDANCE

NUMBER PRESENT AT BAPTIST REVIVAL GRATIFYING.

OVERFLOW THE CHURCH

The Crowd Was So Large That All Could Not Gain Entrance to the Church.

The revival services at the First Baptist church Sunday opened at 9:30 a. m. with 222 in the classes in the Sunday school.

The pastor, Rev. Louis M. Hale, had asked for an attendance of 200, and the response of 222 from the church membership of 278 was indeed gratifying. Rev. Hale's brother, the Rev. George Hale, pastor of the Fifth Street Baptist church at Hannibal, Mo., asked for an attendance of 1,000 in the Sunday school of that church Sunday, and if his request was granted he was not more pleased than was his brother at the Maryville church.

Sunday was commencement day for the primary department of the school, and there were five graduates, who will enter the junior department next Sunday. They are Mabel Raines, Josephine Miller, Irene Yowell, Bessie Schaub, Marie Kissinger, Mary Hawkins, Truman Landon, Cecil Spoor, Ellis Meek, Guy Hawkins, Merrill Reece, Louis Anderson, Marion Gile.

The little people marched to the platform and were presented their diplomas after the manner of a regular commencement day, and Rev. Hale presented the diplomas with as much earnestness and dignity as though they were graduates of a great college. The diplomas were signed by the pastor of the church, superintendent of the school, Senator Anderson Craig, and the superintendent of the primary department, Miss Ada Albert.

The church services were largely attended both morning and evening, all the people who gathered in the evening being unable to gain entrance to the church.

The sermon in the morning was on "Love's Testing," and was a heart-searching discourse for the church membership, as their willingness to do and endure for the sake of Him who gave Himself for us and gave us an example to follow.

The pastor led the prayer service for the B. Y. P. U. at 6:30, and this was in reality a consecration meeting for those who attended.

At the beginning of the evening service the pastor announced that next Sunday would be "Line Up Day" for Maryville Baptists. He expects and desires the attendance of every one in Maryville who is or has ever been a

REV. RUSSELL HERE

IS DIRECTOR AND PROPRIETOR OF ANGLO-AMERICAN COLLEGE.

ORDAINED IN MARYVILLE

He Was Less Than 21 Years of Age at That Time, the Youngest in This Country.

Rev. Fr. Peter Odell Russell, a former Maryville resident, but now director and proprietor of the Anglo-American college at San Jose, Costa Rica, Panama, was a visitor in Maryville Monday. He has recently been in ill health and is now taking his vacation. On Sunday he visited his aunt, Rev. Mother John of the convent at Clyde, and conducted services there.

Father Russell left Monday afternoon for Barnard, where he will spend a few days with his uncle, Simon Schrader. From Barnard he goes to Palmyra, Neb., where he will visit his sister, Mrs. William John. He will return to his work in Costa Rica in a few weeks.

Father Russell is the son of John Russell, formerly a contractor of this city. Mr. Russell constructed many of the buildings that are now standing in the city. Among some of these are the First National bank, the Kuchs building, on the south side of the square; the Keeler building, and many others. His death occurred here twenty-nine years ago. The school of which Fr. Russell is the head has 150 students, all of them being young men. He has been away from Maryville for fifteen years, and this is his second visit since that time. His last visit was about six years ago, when he came from South America to administer the last sacrament to his mother.

Father Russell was the first official chaplain of the Panama canal zone, having received the appointment from Theodore Roosevelt, who was then president. During his time there he accomplished much along religious and sanitary lines.

He also has been located in the Philippines, Peru, Mexico, Panama, Chile, Ecuador, and the Amazon. He has had several parishes in South America, and had charge of missionary work in the Amazon valley and the Philippines.

Father Russell is a very interesting talker and has a large number of pictures of scenes and people of the countries he has visited. He speaks ten languages fluently. He was ordained to the priesthood at St. Mary's church in this city at less than 21 years of age, in the presence of a large congregation, and several church notables were present. At the time of his ordination he was the youngest priest that had been ordained in this country.

IN CITY POLICE COURT.

T. J. Hunt and E. H. Wilson Arrested Just as They Had Been Out of the City Jail.

In the city police court Monday morning E. H. Wilson was given a fine of \$10 and costs for disturbing the peace and a fine of \$20 and costs for being drunk, by Mayor Robey. This was the fourth time that Wilson has appeared in police court for being drunk, and now he will have to serve out time in the city to the amount of \$132.20. Another old offender, T. J. Hunt, was given a fine of \$100 for disturbing the peace and a fine of \$20 for being drunk. This was the third time he was up before Mayor Robey, and he will also have to serve time to the amount of \$132.20. L. W. Shack was fined \$2 and costs for being drunk, being his first offense here.

Gilliam Named as Administrator.

It would seem that fate had decreed that S. G. Gilliam should carry out the affairs of the late Lars Mickelson, who died several weeks ago. Mr. Mickelson, before his death, made a will in which Mr. Gilliam was named as executor. Shortly after the Mr. Mickelson became demented and Mr. Gilliam was appointed as his guardian. After the death of Mr. Mickelson the will was probated, and Mr. Gilliam's position as executor was confirmed by the probate court. However, the heirs maintained that the will in question was not the last will and testament of the deceased, and the matter was taken to the circuit court, where the will was set aside on a technicality, and the court appointed Mr. Gilliam administrator of the estate, which retroverted to the heirs. The incident is one which is not often paralleled.

Mr. and Mrs. M. C. Thompson and son went to Hopkins Saturday to visit over Sunday with Frank Cox.

RAVENWOOD SCHOOL FESTIVAL.

A Good Crowd in Attendance in Spite of Rainy Weather—Had Many Athletic Stunts.

About the school festival given by the Ravenwood schools on Saturday, which we know turned out to be quite a rainy day, the very first sentence that came over the phone in regard to it was this:

Owing to the inclemency of the weather there was a good crowd in attendance at the school festival in Ravenwood Saturday.

That shows that the school children and patrons of the schools surrounding Ravenwood, all of whom were invited, are grateful for rain and were so glad because of it that they went through it to the festival and made the best of everything and ate their basket dinner in the school house and had the declamatory contest in the school house.

The weather cleared up for about two and a half hours in the afternoon enough to allow the base ball game to come off between Guilford and Ravenwood and the jumping stunts. The other athletic affairs had to be postponed.

The ball game between Ravenwood and Guilford was won by Ravenwood by a score of 8 to 2. In justice to Guilford it should be said that all of their players could not come and they had to rely on new men.

The high jump was won by Roy Graf of Ravenwood. His record was 4 feet and 6 inches.

The running broad jump record was made by Andy Horton of Ravenwood. His record was 15 feet and 4 inches.

All the races and the basket ball game had to be postponed. A basket ball game will be played next Saturday at Ravenwood by Darlington high school and the Munkres school.

In the yellow corn contest Cleo Wells was the winner, and in the White Corn contest Glen Duffy of Ravenwood was winner.

For the best work apron, Miss Katie McElvain of Ravenwood received the prize, and for the best loaf of bread Miss Wavie Ralston of Ravenwood won.

The boy winner in exhibiting the best plate of apples was Eldon Steiger, and Miss Ruth Spears won for the girls, both were from Ravenwood.

The declamatory contest had thirteen contestants, and all did well and furnished good entertainment. Miss Helen Jones, daughter of Mr. and Mrs. G. J. Jones, was the winner.

At the close of the contest speeches were made by Editor Graf of the Gazette and C. C. Tebow, encouraging to the teachers and pupils, and it was decided to make this annual affair with school events. It was one of the best social events Ravenwood has had in a long time.

JURY FINDS FOR DAMGER.

In Suit Brought by Lynch for \$45—Took Over a Day to Try the Case—The Other Suits Up.

The jury in the case of L. D. Lynch vs. Peter Damger returned a verdict late Saturday afternoon, finding for the defendant. The suit was over \$45 and was an outgrowth of a horse trade. The jury was composed of R. Craven, Albert Felix, Lon Monk, S. P. Davidson, G. A. Surface, C. D. Horn, Sherman Heflin, F. S. McDonald, J. D. Dickerson, A. J. Wells and J. L. Loran.

Mattie J. Owens, David W. Owens vs. Mary E. Johnson et al., partition, sheriff's report of sale and defendants file exceptions to report, which is overruled. Submitted to court and sale approved and deed ordered executed to the purchaser, George D. Rose. Distribution ordered as per interests. Cook, Cummins & Dawson allowed \$150 attorney fees, and Ellis G. Cook, guardian ad litem, allowed \$5.

The 102 drainage district vs. F. P. Curran, back tax, plaintiff dismissed suit.

The jury was discharged by the court late Saturday afternoon.

No court was held Monday. On Tuesday the case of Sunderland Bros. vs. Wm. Everhart is set for trial, but it will probably be continued. On Wednesday the four Younger cases will come up before the court.

The special services began after the high mass service held Sunday morning by Rev. Father Willibrod at 10 o'clock, with a lecture at 3 o'clock by Father Stanislaus to the young people of the church.

Father Stanislaus will speak on the Ten Commandments, taking one for each sermon. He spoke Sunday evening at 7:30 on the First Commandment. Mass will be at 8:30 each morning, followed by a sermon at 9.

There will be a sermon each evening this week at 7:30.

Next Thursday afternoon at 3 o'clock Father Stanislaus will deliver a special sermon on "The Duties of Married People."

Left for California.

Mr. and Mrs. Arthur Fisher, who have been visiting Mrs. Fisher's parents, Mr. and Mrs. Frank Orcutt, for several weeks, left Monday morning for Visalia, Cal. They have decided to locate at some point in California, where Mr. Fisher will engage in the mercantile business.

Announce Birth of Son.

MOST MISSOURIANS FARMERS.

The Rural Exceeds the Urban Population by a Half Million.

Interesting information dealing with the population of Missouri is given in a bulletin issued today by John T. Fitzpatrick, commissioner of the bureau of labor statistics.

After the announcement that the average family of the state is made up of 4.4 persons, comes the statement that Missouri contains 677,196 dwellings, which are occupied by 749,812 families. Further facts are as follows: To each one hundred dwellings there are 119.7 families. Of the 3,293,355 persons making up the population of the commonwealth, the majority, or 1,894,518, live in rural sections, and 1,398,837, or 459,701 less, in the cities and towns of the state, with St. Louis containing about half, or 687,029 inhabitants.

That those who make the country their home are healthier and live longer is shown by the fact that men and women between 45 and 46 years old are more numerous than those of any other age, there being 152,999 persons in this class. The birth rate is also higher in rural sections than in cities.

For the cities there were 137,931 persons in the state between 25 and 35 years old, as compared to 133,276 persons of those years in the country. This condition shows the tendency of the younger element to flock to the cities, where they remain until the age of 45 is reached, when many return to the farm to spend their declining years living on the best land of offers, and there become healthier and happier. Over 65 years, there were 51,568 on farms and 26,682 in the cities.

The negro population of Missouri is on the wane. In the state there are now 157,462 of this race, to 161,234 who were here ten years ago. Worth and Shannon counties have no negroes, and Stone and Taney counties only one each. St. Louis city has 43,960

Horse Sense.

Musty hay carries many ills. Keep a good-sized lump of rock salt in each horse trough.

Save money by having the old horses' teeth flattened so they can grind their feed.

Water for the horses should be fresh from the pump during the winter months—no ice water.

Work or exercise the stallion daily, and your next season's colt crop will be much more satisfactory.

No horse is well broken until he has no fear whatever of the automobile. Try to turn your horse's back to the wind and blanket him when tying him up, as the wind blowing against his breast is apt to lay the foundation of rheumatism, stiffness and similar ailments.

If the brood mares are not worked regularly, see that they get out in the open air and sunlight and move around.

Often we do not appreciate the virtues of the modest, unassuming mule. He costs no more than a horse colt to foal and raise and is less trouble and expense to put in the harness. He is not as susceptible to disease as the horse, and he is not so easily made stiff or lame. He requires less feed than a horse of the same size, yet will do as much or more work with less fatigue. He will do you twenty years' faithful service.

SAVINGS DEPARTMENT

The officers of the Nodaway Valley Bank wish to announce the establishment of a Savings Department in connection with this institution.

This department will take care of your savings, paying interest semi-annually, and render every assistance in cultivating the habit of saving money.

No one need be ashamed to save money. No one need be ashamed to start with as little as a dollar. The habit of saving money, if persisted in, is bound to make for financial independence and to make a good citizen of the "man with the habit" as well.

You may start an account in our Savings Department with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world and think what it means.

The Savings Department of the Nodaway Valley Bank opened for business on

FRIDAY, AUGUST 22, 1913

Hours 9 a. m. to 3 p. m.

Don't overlook this invitation to start a Savings Account. Drop in next time you are passing and get started. We have a book for you. James B. Robinson, President. F. P. Robinson, Vice-Pres. J. D. Richey, Cashier.

NERVOUS DYSPEPSIA,
GAS OR INDIGESTION

Each "Pape's Diapepsin" Digests 3,000 Grains Food, Ending All Stomach Misery in Five Minutes.

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.—Advertisement
